PARTNER *in* EQUITY

FairShare envisions a future where CSA is the backbone of a strong local food system, and where everyone has access to fresh, healthy, and locally produced food. In order to achieve this future, we must first look to dismantle the systems of injustice that have deep roots in our agricultural history.

FairShare's equity statement, posted on our website, includes a list of commitments (listed to the right) and action items that act as a framework for how we center equity in our work, culture and partnerships.

Support from a Partner in Equity will directly support FairShare's staff, Board & farmer racial equity trainings, as well as the FairShare Equity Accountability Committee. Partners in Equity will also support the Partner Shares and Community Partnerships food access programs. The Partner Shares program contributes 25-75% of assistance towards the cost of a CSA share for limited income households. In 2023, these programs provided assistance to over 550 households, and 1,500 individuals.

FAIRSHARE WILL:

1. Examine our work through the lenses of race, class, ethnicity, language, gender, age and ability, so that we can be conscious of who benefits from our work and who does not.
2. Prioritize focus on and engagement with Black, Indigenous and people of color (BIPOC) farmers and consumers to ensure expanded relevance and accessibility of FairShare programming.
3. Learn about, support, and follow the lead of BIPOC-led organizations, with a focus on those organizations that work in agriculture, food security, labor and health care.

FARMER PROGRAMS

FairShare coordinates a wide variety of farmer-centric programs, including farmer field days, grower gatherings, farmer training and apprenticeship programs, and more.

Sponsoring a farmer program connects your organization to an extensive network of farmers and farm educators across the Midwest and beyond. We will build a sponsorship opportunity that works for your budget and the audience you are trying to reach.
