PARTNER *in* EQUITY

FairShare envisions a future where CSA is the backbone of a strong local food system, and where everyone has access to fresh, healthy, and locally produced food. In order to achieve this future, we must first look to dismantle the systems of injustice that have deep roots in our agricultural history.

FairShare's equity statement, posted on our website, includes a list of commitments (listed to the right) and action items that act as a framework for how we center equity in our work, culture and partnerships.

Support from a Partner in Equity will directly support FairShare's staff, Board & farmer racial equity trainings and work, as well as the Partner Shares food access program. The Partner Shares program contributes 25-75% of assistance towards the cost of a CSA share for limited income households. In 2021, the program provided assistance to over 450 households, and 1,300 individuals.

FAIRSHARE WILL:

1. Examine our work through the lenses of race, class, ethnicity, language, gender, age and ability, so that we can be conscious of who benefits from our work and who does not.
2. Prioritize focus on and engagement with Black, Indigenous and people of color (BIPOC) farmers and consumers to ensure expanded relevance and accessibility of FairShare programming.
3. Learn about, support, and follow the lead of BIPOC-led organizations, with a focus on those organizations that work in agriculture, food security, labor and health care.
